DEMOCRATISING LOCAL WEALTH OWNERSHIP (Facilitator: Fran Jones, CLES)

Democratising the economy is at the heart of Local Wealth Building. With contributions from Preston and Manchester, this workshop will explore practical ways in which Anchor Institutions, businesses and social sector organisations are stimulating and supporting workers, consumers and users to own and control local wealth. We'll hear about new developments in community banking and cooperative development and explore how we can expand and accelerate this movement.

- **Cllr Matthew Brown**, Leader, Preston City Council
- **Dr Marianne Sensier**, University of Manchester

UNLOCKING THE POWER OF PROCUREMENT (Facilitator: Matthew Todd, CLES)

Procurement has a reputation as a dull and bureaucratic exercise carried out by the risk averse. This session will de-bunk the myth and highlight the key role procurement can play in building local wealth and achieving greater economic, social and environmental value for local places and people.

INCLUSIVE ECONOMIC STRATEGY – HOW LOCAL PLACES ARE BUILDING LOCAL WEALTH

(Facilitators: Neil McInroy, CLES and Tom Goodwin, CLES)

Join us as we discuss the development of inclusive economic strategies! We'll be hearing the perspective of colleagues working in Islington and across Wales as they outline their local wealth building progress and future plans, focusing on the challenges and opportunities faced in their particular areas.

- **Cllr Shaikh**, Executive Member for Economic Development, London Borough of Islington
- **Chris Johnes**, Chief Executive, Building Communities Trust
