Community wealth building in health and social care

Tom Lloyd Goodwin,
Associate Director

CLES

progressive economics
for people and place

@tomlloydgoodwin

@CLEsthinkdo

Health and care

What's is the context?

- There number of different anchors institution involved in the commissioning and delivery of health and care
- There is the potential for CWB activity to take place across all 5 strands
- There are important structural differences between the NHS and local government, as well as a different policy context

Health and care

What is the potential?

- NHS progressive approach to employment, land property and assets, finance, commissioning
- Local gov - broadly across all strands, but in relation to health and care progressive commissioning
- VCSE - progressive use of finance

Health and care

What are the challenges to community wealth building?

- NHS - policy context, structure, lack of awareness
- Local gov - austerity, commercialisation, market failure
- VCSE sector - capacity and scale
